When All That Matters is the Best of Care

We Give Strength to Each Other

Shady Grove Adventist Hospital 2007
Our thanks to our generous community
When all that matters is the best of care, we give strength to each other.

Thanks to your strong support over the years, Shady Grove is strong for you, delivering the best of care to our community.

Here is where our community turns for sophisticated medical technologies, specialists available 24/7, recognized clinical programs, extensive medical and surgical facilities, and a talented and compassionate nursing staff, all within an environment specially designed to lift spirits as they restore health.

Shady Grove's new Expansion, opened just this year, greatly increases our capabilities. The Expansion makes it possible for Shady Grove Adventist Hospital to offer the community a larger number of private rooms, nursing stations just outside patients’ rooms so nurses are always close to their patients, plus comfortable rooms where families can be together and relax while their loved one recovers. Every inch of the Expansion is designed to contribute to the well-being of the whole patient and the entire family.

The new Expansion and the care provided within this hospital simply could not have happened without you. Thank you!

We invite you now to read stories of your neighbors whose lives have been touched by Shady Grove Adventist Hospital. Their experiences stem from the vital support the hospital has received from our community year after year.

We hope that their stories inspire you now to contribute to the hospital through the Shady Grove Adventist Hospital Foundation. Your donations will strengthen the future we share.

Sincerely,

Dennis Hansen
President
Shady Grove Adventist Hospital
When all that matters is the best of care, we’re here — providing advanced health care for the whole family.
During its 29 years in this community, Shady Grove Adventist Hospital has made a difference in the lives of many people. These are a few of their stories ...
Jennifer waited for the first cry, then the second. “It seemed an hour until I heard the third guy. And then, finally, I knew everybody was okay.” It was February 22, 2006, and after 33½ weeks of pregnancy, Jennifer gave birth to Ashton, Roman, and Colten.

The boys were healthy, and at just under five pounds each, larger than most triplets. Jennifer did so well largely because of her Shady Grove-affiliated obstetrician, Dr. Thomas Pinckert, who was able to prolong her pregnancy many more weeks than most triplet pregnancies. A specialist in complicated and high risk pregnancies, Dr. Pinckert also brings to Shady Grove the ability to do sophisticated procedures such as in utero blood transfusions and bladder stenting.

Jennifer’s newborns still had to put on some weight, though, and stayed for two weeks in our Neonatal Intensive Care Unit (NICU) after she went home. Our NICU is rated Level III-B, which means it is specially staffed and equipped to provide continuous life support and care for infants born after less than 28 weeks gestation or under 1000 grams, and infants born with a complex, critical illness. Thanks to community support, Shady Grove was recently able to bring a Stat Pager System to our NICU, a system that keeps nurses constantly connected to infants’ vital signs.

Hard as it was for Jennifer to leave the triplets, our NICU nurses helped make it less trying. “I felt so safe trusting my babies to them. I felt they truly loved my boys.” Our Shady Grove team was able to get Jennifer and her boys off to a great start. Today, the triplets are car-loving, park-playing, non-stop toddlers, who turn every event into a huge production — every minute of which Jennifer, the self-proclaimed over-achiever, loves. “Maybe that’s why God gave me triplets,” she says. “He knew I could handle chaos!”

When all that matters is
three healthy cries.

Within a week after learning she was pregnant, Jennifer Clapp-Bennett got an even bigger surprise — triplets. The culmination of Jennifer’s pregnancy — tracked in a National Geographic TV special — took place here at Shady Grove with the healthy birth of her three “tiny, fragile babies.”
"It takes a lot of courage," Marguerite says now, just a little more than a year after her knee replacement surgery, her physical therapy behind her. But Marguerite was determined. Her doctors, who “work their wonders” at Shady Grove, agreed, advising her that because of her history, her surgery would be unusually complex.

Marguerite began the process by attending our Total Joint Replacement “Boot Camp”, where former patients share their experiences and join staff in helping surgery candidates better understand what lies ahead. Marguerite learned, for example, how quickly patients are able to sit on the side of their bed (the same night after surgery) and even take a few steps (the day after!) The Camp is just one way Shady Grove Adventist Hospital treats the whole patient’s emotional as well as physical needs.

Marguerite’s surgery, followed by rigorous, structured physical therapy, gave her “a new lease on life.” She’s now able to comfortably enjoy an evening out or travel with her husband abroad.

Shady Grove’s Joint Center performs over 500 knee and hip replacements a year. More than 85% of its patients are discharged directly home, most patients are driving in less than three weeks, and when the healing process is over there is little or no pain. That was Marguerite’s experience. “I’m extremely comfortable. I just feel so much better.” Marguerite’s doctors give her equal credit. “They told me, ‘We couldn’t have done it without you.’ It’s really a partnership with the surgeon.” Now walking without a limp and full of energy, Marguerite brings her story to new “Boot Camp” members. She volunteers at this program several times a month to encourage and motivate candidates. “I am so thankful and happy. I want to share my enthusiasm.”
“I was hopelessly overweight, but psychologically unable to lose it—even with a doctor’s supervision,” Rodney says. “I needed the tool of surgery to kickstart my weight loss and exercise.”

The surgery Rodney chose was gastric lap-band bariatric surgery. Whether involving the adjustable (and removable) lap-band or gastric bypass, bariatric surgery limits a person’s food intake.

Just knowing he was about to have his surgery motivated Rodney to start walking a few minutes each day, then a few minutes more. With surgery, he made rigorous exercise part of his regime, so much so that just months later he was able to run a half-marathon in Baltimore and full marathons in Philadelphia and Washington, D.C. Rodney is now training for the grueling Half Ironman triathlon: a 1.2 mile swim, 56 mile bike ride, and 13.1 mile run.

Within six months of surgery, he’d lost over 110 lb. And his weight continues to drop.

The program Rodney turned to is the only one in Montgomery County designated as a Bariatric Surgery Center of Excellence by the American Society for Metabolic and Bariatric Surgery. The Center, with generous funding from our community, provides a valuable option for people at least 80-100 lb. overweight, especially those facing related, life-threatening conditions. It brings together certified bariatric surgeons, specially trained nurses, dieticians, and dedicated equipment for bariatric patient care, as well as all-important patient education classes and nutritionists. Rodney, for example, needed special dietary guidance to balance gastric band restriction and his own high-powered exercise regime.

“I’m now physically fit and I feel fantastic, absolutely amazing,” Rodney says. “The surgery changed my whole perspective . . . and definitely saved my life.”
The 2007 opening of Shady Grove’s new Expansion dramatically changes our ability to provide the best of care.
The Expansion was made possible by our community’s generosity …
“We were so fortunate we were close to Shady Grove,” Selma said. They took Harold into the Emergency Department and right into surgery.

It was serious. The surgeons had to shock him twice, they told her, but Harold survived the operation. They would have to wait a few days to know whether he’d make it.

“I was so frightened all the time I was there. But it’s a wonderful, wonderful hospital,” Selma says. “I was extremely impressed, not only with the Intensive Care Unit but also with the care that followed. They have a very good nursing staff.”

Shady Grove is one of the few hospitals in the county designated as an accredited Chest Pain Center, and is one of the first in the area with a comprehensive cardiac rehabilitation program. Based on the hospital’s exceptional outcomes for cardiac patients, we have been approved for percutaneous coronary intervention (PCI), an early life-saving medical procedure.

What’s more, our capacity for surgeries of all kinds — including cardiac surgeries as complicated and challenging as Harold’s — has just grown with the opening of our new 100,000 sq.ft. surgical unit, made possible by donations from our supporters.

Just weeks after his attack, Harold is returning to his youthful self and about to begin cardiac rehabilitation. Married 58 years, he and Selma are getting back to normal — Selma to her art and Harold to his long-time interests in biblical archeology and photography. Says Selma, “The most important thing is that he’s here.”
When Buddy arrived at Shady Grove, he couldn’t speak or move his arms or legs. Each second mattered: a stroke can mean the death of two million brain cells every minute.

Our specialized, integrated Stroke Team sprang into action, using imaging technology to learn the specific type of stroke Buddy had suffered. Blood clots cause about 80% of strokes — including Buddy’s. Our team administered a drug that dissolves clots, and his symptoms began to reverse before their eyes. “They gave me a shot,” Buddy said, “and by 11 a.m. I could talk again.”

Buddy spent three days in our Intensive Care Unit, looked after by physicians and a core group of ICU nurses who are specially trained in stroke care.

Stroke services are a priority for Shady Grove, and in 2007 the hospital was designated a Primary Stroke Center by the Maryland Institute for Emergency Medical Services Systems. EMS personnel now know to bring stroke victims here for the rapid, expert care needed to save lives and limit disabilities. Here, too, is the follow-through for meeting the whole person and preventing a re-occurrence — diagnosis and treatment of the stroke’s root cause, as well as diet and exercise counseling, physical therapy, and support groups.

Hours after being released from the ICU to a non-acute medical unit, Buddy was back home with his wife — and his five talkative parrots. Today he is as good as ever. “I’ve got no effects from it. They took real good care of me.”

When all that matters is a clearly spoken word.

Buddy Harding knows he’s a lucky man. His stroke occurred in the morning before his wife had left for work. Elizabeth recognized the symptoms: a sudden numbness or weakness of the face or body and an inability to speak or walk. “She knew right off the bat,” Buddy says, telling him he was having a stroke even as she called the ambulance.
“This was a great experience for us,” Jimmy says of Ethan’s birth. “The new suites are wonderful, very comfortable and peaceful.”

The Greens and Knightens were among the first to experience the joy of our new large, private family-sized mother-baby suites. Here, moms have the choice to keep their newborns with them full time, dads can stay all night, and families can hang out together in a home-like lounge.

But two weeks after going home, the kind of minor freak accident that every parent dreads brought Ethan back to Shady Grove. He had bumped his head, and to be on the safe side, parents and grandparents brought the baby to our Pediatric Emergency Department to be thoroughly checked out.

“Shady Grove turned a frightening experience into a positive one for all of us,” Ethan’s grandfather Jimmy said. “They were just fabulous, very calming and professional.” Ethan stayed in one of our pediatrics rooms for observation with his mother, where nurses “took care of my daughter as well as the baby. They were just great.”

Ethan was able to return home and resume the normal life of a healthy newborn — much to the relief and appreciation of his grandfather. Shady Grove Adventist Hospital had given Jimmy “the sense that Ethan was getting the best care in the world.”

It’s a level of care we bring to all our services for our community’s youngest, from the County’s first full-service pediatric emergency department and only pediatric intensive care unit to the pediatrics unit where Ethan stayed.

Ethan is now completely healed, and “smiling and giggling at my silly faces.” Perfect.
As our community grows and changes, so will we.
The mission continues …
Shady Grove Adventist Hospital’s purpose is timeless: to improve the health of people and communities through healing that rallies mind, body, and spirit. But how we carry out our purpose is always evolving—changing along with our community and medical care itself.

Thanks to your support, Shady Grove’s four-story Expansion is now a reality. Shady Grove just opened a larger and transformed surgical space, which brings the number of surgical suites to 16, the most of any hospital in Montgomery County. And just ahead is our Healing Garden, a 33,000 sq. ft. space that will bring the healing elements of natural, outdoor beauty to patients, visitors, and staff.

We could not have done it without you. But more help is needed.

Tomorrow is right around the corner. Montgomery County is expected to grow to one million residents by 2010, and continue to grow another 16% by 2030. Ours is not only an impressively diverse population, but also an increasingly aging population. Over the next 25 years, we can expect our area’s health needs to intensify and grow.

As a not-for-profit hospital, how will we acquire the equipment and expert personnel needed to care for our growing and aging community? How will we grow our ability to address conditions that matter most to you? How will we be able to maintain the kind of work environment that attracts top employees, volunteers, and medical staff?

The answer is—you. As we have since we opened our doors 29 years ago, we will need the strength of your support and donations to continue to provide the best of care to our community.

Bringing strength to each other. Shady Grove Adventist Hospital looks to you to help us bring new technology, life-saving equipment, and state-of-the-art facilities to our community. We are relying on you to help fund crucial initiatives.

When all that matters is a healthy community—today and tomorrow.
Oncology. The hospital’s $6 million oncology (cancer) initiative includes plans to acquire a new CT Simulator for Radiation Oncology, one of the latest advances in the field and estimated to cost $700,000. Your support of the initiative also will fund a new Linear Accelerator, which uses external beam radiation to destroy cancer while sparing surrounding healthy tissue. The estimated cost of this device is $3.8 million. A $3.5 million gift to Shady Grove’s Lift Beyond Cancer will name the program, expand services, and establish an endowment that will fund the program in perpetuity.

Cardiovascular Services. Shady Grove anticipates a threefold increase in the number of cardiac diagnostic and intervention procedures performed each year here by 2012 and a 50% increase in the number of catheterization laboratory rehabilitation cases in the near future. To prepare, Shady Grove Adventist Hospital needs $1 million in funding for three new state-of-the-art Catheter Labs and an expanded Cardiovascular Rehabilitation Center.

Surgical Services. Our $4.5 million surgical services initiative will fund equipment and other needs for our newly expanded surgical services. These include intra-operative (during surgery) imaging and equipment for performing minimally invasive surgical techniques.

Women’s & Children’s Services. Shady Grove is working to raise $1.5 million for women’s and children’s services to help expand our Neonatal Intensive Care Unit, provide state-of-the-art equipment and training for the Hospital’s Sexual Abuse and Assault Center, expand Shady Grove’s Pediatrics, and fund other vital services.

Come with us into the future. You should know that every dollar contributed to the Foundation goes to delivering and improving care. Through your donations, we are better able to meet emerging needs and apply the latest medical advances.

Let’s continue on our path together, ensuring that Shady Grove Adventist Hospital remains not only our community’s choice for local care but our community’s choice for the best of care. Our future depends on you.
Our thanks to you — our caring community — for your generous support.
Thanks to all our 2007 donors …
Congratulations. Thanks to you and your fellow donors, our Expansion is completed and serving our community. If you haven’t had a chance to stop by and take a look at what your support has accomplished, I hope you will.

I know you’ll be excited by what you see — advanced clinical care housed in a facility that feels like home, private rooms with features designed for the way today’s patients and families live, and more surgical space than any other hospital in Montgomery County.

Equally important is the excellence of our physicians and nurses. Their humanity and their compassion are as much a part of our hospital’s character as the extraordinary quality of clinical care they provide.

Your generosity made the Expansion possible. Ahead, we look forward to further enhancing services in areas that may have special meaning for you — women’s and children’s services, surgical services, oncology, and cardiac and vascular services. We plan to continue to make this a place where our region’s best physicians, nurses, and employees choose to work, and keep pace with our community’s changing needs. Throughout all our initiatives, we promise to continue our distinctive role as a provider that cares for the whole patient, emotionally and physically, and integrates the healing power of each patient’s faith.

Thank you for supporting this significant year in our hospital’s life, and for joining us in building a future that benefits everyone who lives and works in our community.

Sincerely,

William H. Smith
Chief Development Officer
Shady Grove Adventist Hospital Foundation
Lockheed Martin employs thousands of people at its Bethesda headquarters and other facilities in Montgomery County. Its support for Shady Grove means a great deal not only to the hospital but also to the company’s employees. Peter Harrigan, Vice President of Communications for Lockheed Martin’s Electronic Systems business unit, says, “Our support demonstrates we believe in the hospital and its mission. Because we recognize our employees who live and work in the community may need to take advantage of its services, our support also demonstrates that we stand behind our employees.”

Peter has seen firsthand the impact of corporate donations on the hospital itself. A member of the Shady Grove Adventist Hospital Foundation’s Board of Trustees and now its president-elect, he says, “I know how critical the donations of corporations and professional organizations are to the hospital.”

Lockheed Martin’s corporate donations to Shady Grove Adventist Hospital have helped make the new Expansion possible, along with new valuable services and the addition of excellent physicians and nurses to our staff. “I am proud that my company partners with the Foundation for the betterment of the community.”

In fact, Peter also has chosen to become an individual donor to Shady Grove. “It is a good way for me to give back to the community and also be involved in an organization in which my colleagues have a stake.”

Lockheed Martin Corporation has donated generously to Shady Grove Adventist Hospital Foundation for several years. Its contributions are rooted in the company’s commitment to being a responsible, active citizen in communities where it is located and supporting community services upon which its employees rely.

A Grand Opening
and a Great Thanks

17th Annual Donor Recognition Event
Honoring President’s Circle of Friends

This year’s Shady Grove Adventist Hospital Foundation’s special event honoring our President’s Circle of Friends coincided with an occasion that their support helped make possible: the Grand Opening Event for the new hospital Tower. This special event, held in the Sullivan Outpatient Waiting Lounge, took place December 3rd.

The Annual President’s Circle of Friends event recognizes Foundation donors who made gifts of $1,000 or more to the Hospital in 2006. Through the generosity, support and energy of all our donors, our Campaign Steering Committee and our Board, the Foundation raised a total of nearly $15 million over four years for the Expansion Campaign.

For the fifth year running, special Recognition Awards were presented to an individual or physician practice for their generosity.

President’s Award – Outstanding Corporate Contribution
Presented to: Healthcare Initiatives Foundation
This award recognizes corporations and/or foundations for their commitment, service, and generosity toward the advancement of the mission of Shady Grove Adventist Hospital. It was awarded to Healthcare Initiatives Foundation, whose mission is to look for those healthcare organizations who are innovative and on the leading edge of healthcare services, especially for the under-served population. Healthcare Initiatives Foundation also is committed to expanding care to the residents of Montgomery County. Through the Healthcare Initiatives Foundation’s generous challenge grant of $1 million for the new Expansion, they were able to achieve this vision. Once again, Healthcare Initiatives Foundation has stepped forward, recently making another major gift in support of our Life Beyond Cancer program. We are grateful for their passionate commitment to the delivery of healthcare services in Montgomery County.

President’s Award – Outstanding Physician Contribution
Presented to: Simmonds & Simmonds, Chartered
This award recognizes an individual physician or a physician group for faithful, consistent, and significant financial contributions in support of charitable programs at Shady Grove Adventist Hospital. Simmonds & Simmonds, Chartered, has been a loyal supporter of the hospital since 2003, and was one of the lead champions for its Expansion. Dr. Albert Simmonds served as the Chairman of the Campaign Steering Committee. His practice committed $250,000 to the Tower, and his leadership helped raise the bar for physician giving. Collectively, physicians have committed over $5 million towards the Expansion Campaign. We are grateful to the members of this physician group for their help in making Shady Grove the best hospital for our patients.
**Lifetime Giving Award**
Presented to: The Pettit Family Charitable Foundation

This award recognizes an individual or an organization that exemplifies outstanding service and support for the mission of Shady Grove over an extended period of time. John H. Pettit (Founder) played a strong role in the early days of fundraising and friend-raising for Shady Grove, and he served on our Foundation Board 1981-1985. The Pettit Family has continued John’s philosophy with their outstanding volunteer leadership. John’s son, Richard Pettit, has served as a key leader for many local, not-for-profit organizations, including his position as President of Montgomery Hospice. John’s daughter, Jeanne Pettit, has been a member of the Shady Grove Adventist Hospital Foundation Board of Trustees since 2000, and currently serves as President. In 1988, this exceptional family founded The Pettit Family Charitable Foundation, and created a rich heritage of service and support throughout the community. The family’s charitable support for Shady Grove Adventist Hospital began in 1985, and included the lead gift for the Pediatric Emergency Department Campaign. The Pettit Foundation continues their generosity with a major gift to support the Healing Garden Project. We are proud to be the beneficiaries of this generous and compassionate Foundation.

**Heritage Society Award**
Presented to: Constance & Roscoe Whipp

The Heritage Society was established to recognize those individuals who include Shady Grove in their estate planning through bequests, gift annuities, life insurance, and/or trusts. Constance & Roscoe Whipp became the first members of the Heritage Society in 1984, having named Shady Grove Adventist Hospital as a beneficiary of their estate. The Whipps have been in the forefront of the emergence of the Foundation’s charitable gifts annuity program. Constance & Roscoe Whipp represent hometown people who know the importance of their local community. They have given tremendous years of service and leadership to various organizations. Connie has contributed more than 15,500 service hours through the Volunteer Department and maintained a leadership role within the Shady Grove Adventist Hospital Auxiliary. The Hospital Chapel was also made possible through their generosity.

**Previous Year’s Recognition Award Recipients**

**Outstanding Corporate Contribution**
- W M. Rickman Construction Company (2005)
- Cohen, Rutherford, Blass + Knight, PC (2003)

**Outstanding Physician Contribution**
- Shady Grove Radiological Consultants, PA (2006)

**Lifetime Giving Award**
- Farid & Kathleen Srour (2004)
- Shady Grove Adventist Hospital Auxiliary (2003)

**Heritage Society Award**
- Dorothy A. Farmer (2006)
- Alice C. & Milton F. Clogg (2005)
- Doris & Syd Fishman (2004)
- Nancy Todd Ackerman (2003)

The Shady Grove Adventist Hospital Foundation is grateful to all of the President’s Circle of Friends for making the year so successful. If you are interested in becoming a member of the circle, please contact the Foundation Office at (301) 279-6570.
Giving Strength to Each Other:

2007 Accomplishments

Last year, our community’s total contributions of $2,444,763 to the Foundation funded various expansion requirements ($1,857,996); our Healing Garden ($323,856); the Life Beyond Cancer Program ($16,789); care for other services ($16,789); further education ($11,955); and other hospital-wide needs ($65,314). Thank you!

Thanks for putting the fun in 2007 fundraising

Our thanks to the community for making our two largest fundraising events the most successful ever. The Foundation’s 22nd Annual Golf Classic, held Monday, June 25 attracted a record 360 golfers and netted a new record of $215,000. More than 5,000 guests attended the 55th running of the May 20 Ponoma Hunt Races at the country estate of Austin Kiplinger. Our thanks to all participants and also to our Hunt Race partner, Outback Steakhouse of Germantown.
"Attitude is everything. It became Shady Grove Adventist Hospital’s mantra as Tammie endured years of cancer treatments, returning home just four days in her final six months. During her care, Tammie had made and handed out hundreds of “Attitude” pins to anyone and everyone — including the many Shady Grove nurses she endeared herself to and who became the Aquilinos’ second family.

“She was a very kind and caring person,” Michael says. “We were high school sweethearts and we had three great kids together. It was a very difficult time for me and my family. But the hospital made it as bearable as possible.”

Even before her death, Tammie and Michael considered some contribution that would express their thanks to the hospital for its care. When Michael later learned that the hospital was considering new larger oncology suites furnished with sofa beds for overnight visits, he knew what to do.

“The best thing we could give some other family would be the ability to stay with a loved one during a very difficult time and make it as comfortable as possible.”

Michael, his family, and Tammie’s parents attended the Tower Grand Opening. He said. “This room will make life a little easier for somebody. And to have Tammie’s name engraved outside — it means everything to us. It’s something that will carry on her name.”
Cumulative Giving

Another thank you to our donors who have given a cumulative total of $25,000 or more to Shady Grove Adventist Hospital. Their significant commitment has improved healthcare for current and future generations in Montgomery County. The cumulative donor wall is located in the Emergency Department area at Shady Grove Adventist Hospital.
“We make a living by what we get, but we make a life by what we give.”

Winston Churchill
Deca Club

The donors listed below have made a gift to Shady Grove Adventist Hospital every year for the last ten or more years. These members have given over $8 million in their combined lifetime of giving. We salute their faithful support and count them among our closest friends.

About Shady Grove Adventist Hospital Foundation

Since 1981, the Shady Grove Adventist Hospital Foundation’s sole purpose has been to raise funds to support the hospital. We are committed to the advancement of Shady Grove Adventist Hospital, whose mission is to provide healthcare excellence and service to the people of our region.

As we raise funds on behalf of Shady Grove Adventist Hospital, we transfer those funds directly to the hospital for programs, equipment, and services on an as-needed basis. This enables our community hospital to meet the needs of its patients every day. Shady Grove Adventist Hospital is a not-for-profit hospital but nonetheless must still demonstrate a profit on an annual basis to be able to acquire the latest equipment and expertise as well as to grow to meet expanding community needs. The work of the Foundation contributes to the positive bottom line of the hospital every year—improving community care.
Shady Grove Adventist Hospital Foundation

As a not-for-profit organization, Shady Grove Adventist Hospital directly applies every donation to caring for patients and delivering critical services throughout the community. The hundreds of gifts received each year help ensure that our hospital continues to provide the best facilities, treatments, and clinical care.

There are many ways to give:

**Contribute Online:** You can choose the amount and also the designation at any time by going to www.shadygroveadventisthospital.com.

**Bequests:** By naming the hospital as a charitable beneficiary of your estate, you’ll become a member of our Heritage Society. Call and we will help you make arrangements.

**Charitable Gift Annuity:** The charitable gift annuity is an opportunity to make a charitable gift to support Shady Grove Adventist Hospital and receive lifelong income at the same time.

**The President’s Circle of Friends:** This membership club includes esteemed individuals and businesses who donate an outright gift of $1,000 or more to Shady Grove Adventist Hospital in a calendar year.

**Commemorative Gifts:** These gifts honor or are given in memory of a person important to you.

**Gifts of Stock:** Giving a greatly appreciated gift of publicly-traded stock that you have owned for more than one year may provide greater tax benefits than giving cash.

**Matching Gifts:** Many companies offer a matching gift program to their employees as a benefit. The company matches the employee’s donations to charitable organizations, such as Shady Grove Adventist Hospital.

**Vehicle Donation:** Our Vehicle donation Program is a free convenient service for converting an extra car, truck or RV into a tax-deductible donation that benefits the hospital.

**Volunteering:** Shady Grove Adventist Hospital needs volunteers to help us provide our community with the best of care.

**Workplace Contributions:** Shady Grove Adventist Hospital participates in the Combined Federal Campaign of the National Capital Area and the United Way workplace campaigns.

Additional gift options include Appreciated Assets, Cash, Named Funds, and even your own gift idea. If you’d like to make a contribution or would like to learn more about giving opportunities, please call us. For information, call the Shady Grove Adventist Hospital Foundation at 301-279-6570 or visit www.shadygroveadventisthospital.com.
Mission
We demonstrate God's care by improving the health of people and communities through a ministry of physical, mental and spiritual healing.

Values
Respect: We recognize the infinite worth of the individual and care for each one as a whole person.
Integrity: We are above reproach in everything we do.
Service: We provide compassionate and attentive care in a manner that inspires confidence.
Excellence: We provide world class clinical outcomes in an environment that is safe for our patients and caregivers.
Stewardship: We take personal responsibility for the efficient and effective accomplishment of our mission.

For more information on how to support Shady Grove Adventist Hospital, please contact the Foundation office at 301-279-6570 or visit www.ShadyGroveAdventistHospital.com.
When all that matters is the best of care.

Fully Accredited For Quality Care
Ernest Amory Codman Award
for excellence in the use of outcomes measurement to achieve improved quality and safety
Workplace Excellence Award, Maryland Work-Life Alliance,
for being a great place for employees, volunteers and medical staff to work
Health & Wellness Trailblazer Award, Maryland Work-Life Alliance,
for our commitment to our workforce's health and wellness.
