Award-Winning Care

We are accredited by The Joint Commission, the nation’s leading healthcare accrediting agency, which reflects our commitment to providing the safest and most effective care possible.

We are the first acute rehabilitation facility in a five-state area to be accredited for our comprehensive, integrated inpatient rehabilitation programs by the Commission on Accreditation of Rehabilitation Facilities (CARF).

**Responsive:** Our patients are welcomed into our hospital care as soon as possible after their injury or illness.

- **Regional average days until care**
  - Traumatic: 13 days
  - Non-traumatic: 14 days

- **AHC Rehab average days until care**
  - Traumatic: 9 days
  - Non-traumatic: 13 days

**Effective:** Our patients achieve their goals in a shorter length of time so they can return home faster.

- **Regional average days of stay**
  - Traumatic: 14 days
  - Non-traumatic: 13 days

- **AHC Rehab average days of stay**
  - Traumatic: 13 days
  - Non-traumatic: 13 days

**Personalized:** We treated patients ranging from 18 to 96 years of age in our brain injury program, with the average being 66 years of age for our brain injury patients.

- Male: 61%
- Female: 39%

**Balanced:** We understand the complexities that both men and women face in their rehabilitation.

- **61% male**
- **39% female**

**Results-oriented:** In order to ensure the best outcomes, we measure how much each patient has improved each day. Our patients’ daily improvement is among the highest in the region.

- **27% higher daily improvement than the average regional patient**

**Customized:** Our patients receive intensive rehabilitation therapy. Our brain injury patients on average participated in 15.1 hours of therapy a week.

- **16.3h per week**

**Successful:** More than 72 percent of our patients returned to their home after leaving our hospital.

- Some patients’ needs were best met by other support, including care in an acute-care hospital or in a skilled nursing facility.

**Compassionate:** Our patients consistently report positive satisfaction ratings about our hospital and care to an independent auditor.

- **91%**
