## Award-Winning Care

We are accredited by The Joint Commission, the nation's leading healthcare accrediting agency, which reflects our commitment to providing the safest and most effective care possible.

We are the first acute rehabilitation facility in a five-state area to be accredited for our comprehensive, integrated inpatient rehabilitation programs by the Commission on Accreditation of Rehabilitation Facilities (CARF).

# Stroke Rehabilitation

**Responsive:** Our patients are welcomed into our hospital care as soon as possible after their injury or illness.

Average days until care:

8

Regional

12

AHC Rehab

**Balanced:** We understand the complexities that both men and women face in their rehabilitation.

**Effective:** Our patients achieve their goals in a short length of time so they can return home faster.

Average days of stay:

18

Regional

17

AHC Rehab

**Results-oriented:** In order to ensure the best outcomes, we measure how much each patient has improved each day. Our patients' daily improvement is among the highest in the region.

8% higher daily improvement than the average regional patient

**Personalized:** We treated patients ranging from 28 to 100 years of age in our stroke program, with the average being 69 years of age.

**Compassionate:** Our patients consistently report positive satisfaction ratings about our hospital and care to an independent auditor.

**Customized:** Our patients receive intensive rehabilitation therapy. Our stroke program patients on average participated in 16.5 hours of therapy a week.

**Successful:** More than 66 percent of our patients returned to their home after leaving our hospital.

Some patients' needs were best met by other support, including care in an acute-care hospital or in a skilled nursing facility.
